Collaboration

Trello	10 yrs
Confluence	9 yrs
Jira	9 yrs

👤 PROFILE

Over the past several years I have worked across various domains within the financial sector. I thrive in supportive remote environments where the focus stays on coding rather than on excessive meetings, which keeps deliveries efficient and productive. I actively seek out inspiration to keep improving, learn by doing, and embrace new challenges. I am a quick learner: I adapt rapidly and grow fast within any team.

📁 PROFESSIONAL EXPERIENCE

Head of Software Engineering

Danske Bank, Asset Management · 2023 - Present

- Responsible for technical leadership and HR (2+ years), including recruiting and onboarding top-tier talent.
- Led the decentralization of the Asset Management tribe while running multiple large-scale projects concurrently.
- Acted as the link between architects and developers, translating vision into actionable architecture.
- Head of the .NET/C# domain, responsible for tech strategy, quality standards, and long-term maintainability.
- Led the migration of legacy systems to modern, scalable, and robust technology stacks.
- Delivered numerous cloud-native microservices with a focus on performance, scalability, and clean architecture.
- Hands-on developer of high-quality, low-maintenance code with a strong focus on engineering excellence.
- Provided architectural guidance and technical mentorship to a team of 10+ engineers.
- Drove initiatives to maintain a high standard of application quality and infrastructure independence.
- Contributed to both low-level and high-level documentation.
- Regularly showcased new features and product updates to audiences of 70+ people, ensuring transparency and alignment.
- Built a supportive team by teaching, guiding, and leading by example, helping others learn, grow, and work better together.

Senior Software Engineer, Cloud Specialist

Danske Bank, Asset Management · 2021 - 2023

- Key person in decentralizing the tribe and driving multiple big projects at once, while interviewing and onboarding the best candidates.
- Head of the .NET area.
- Moved legacy tech stacks to newer, more robust ones.
- Documented both low-level designs and the high-level picture.
- Delivered a steady stream of cloud-native microservices.

EDUCATION

Bachelor's Degree

Roskilde University (RUC)

Computer Science and Informatics

2016 - 2020

Upper Secondary School, Mathematics and IT

H.C. Ørsted Gymnasium, Frederiksberg

Technical upper secondary school (HTX)

2013 - 2016

Primary School

Søndervangskolen, Glostrup

Grades 0 to 9

2003 - 2013

- Led and taught other developers the architecture and the vision for where we were heading.
- Acted as the link between the architects and the developers.
- Built solid infrastructure, fully separated from everything else.
- Maintained a high standard across applications.
- Showcased new features and functionality to audiences of 70+ people.

Cloud Specialist

Danske Bank, Asset Management · 2021 - 2021

- Laid a solid foundation in modern development for years to come.
- Helped other tribes perform better.
- Delivered a steady stream of cloud-native microservices.

Associate Software Engineer

Danske Bank, Markets Post Trade Services · 2019 - 2021

- Laid a solid foundation in modern development for years to come.
- Took part in clubs to improve skills and retrospection.
- Built applications that process multiple millions each day.
- Built Razor Pages.

Student Software Engineer

Danske Bank, Markets Post Trade Services · 2018 - 2019

- Agile development.
- Worked with Docker orchestration.
- Built supporting applications for business users.
- Learned about the business as a whole.

Webmaster, Freelance

Kongebørn · 2017 - 2018

- Created a stable CMS.
- Updated and maintained plugins.
- Developed the site's CSS.
- Worked in the physical store and helped where needed.
